Breaking into the night

You can just play a **G** here, but since Bagshaw sings a diminished fifth here (**Db**) I guess it would sound nice if you play this in your chord, like this:

```
E| |4|
B| |3|
G| | |
D| | |
A| |1|
E| |2|
```

which you can easily dissolve into a normal **G** by releasing your third finger.

play the end with this awesome spooky riff:

```
E|--2-----
B|-----2
G|-----3-
D|-----2--
A|---45---
E|2-----
```
