Tom: G

```
             D     Em
Sittin' in the back of this Cadillac
A         Bm
Thinkin' I worked way too hard to be where I'm at
D     Em
Blinded by the cars and the boulevards
A         Bm
I always took my cues from the real stars

D     Em
But now I'm sittin here when I saw the sign
A         Bm
And realized that it's time to get where I'm goin'
D     Em
I hope you don't mind that I'm takin time to get mine
A         Bm
And you know I ain't scared to show it

D     Em
Well I gotta plan in the palm of my hand
A     Bm
To get me rollin
D     Em
I gotta plan in the palm of my hand
A     Bm
To Get Me Golden

D     Em
```

```
You can try, you can try to put it all on the line
A         Bm
Ain't comin home ti'll you kiss the sky
D     Em
Cause all I want all I want all I really really want
A         Bm
Is to know that the love is worth the sacrifice

D     Em
But now I'm sittin' here when I saw the sign
A         Bm
And realized that it's time to get where I'm goin'
D     Em
I hope you don't mind that I'm takin time to get mine
A         Bm
And you know I ain't scared to show it

G     Gbm       Em    D     Em
Well I know you may not really care
G     Gbm      Em       G     Bm
But I'm just trying to get by

D     Em
When the city sleeps in yeah
A     Bm
We'll slip right on through the back
D     Em
When the city sleeps in yeah
A     Bm
We'll slip right on through the cracks
