

Tessa Violet - Bird Song

Tom: E

(com acordes na forma de Capotraste na 4ª casa C)

I've been pacing around my room
thinking about how I like the color blue
it reminds me of you

I saw a bug on the window pain
I saw a drop followed by the rain - oo-oo
it reminds me of you

and you got me thinking about
all of your freckles and the corners of your mouth
do you think that I'm weird?
I like your kisses and I wish that you were here
all the time I got you on my mind all I do
reminds me of you

I met a bird and he sang a song
he took the melody while I sang along
but I could have been wrong

he told a story about a girl
I'm pretty sure that I understood the words
but I don't speak much bird

and you got me thinking about
all of your freckles and the corners of your mouth
do you think that I'm weird?
I like your kisses and I wish that you were here
all the time I got you on my mind all I do
reminds me of you

(Assobiando) Tessa: That's the bird
(Assobio continua) Tessa: I think so too

and you got me thinking about
all of your freckles and the corners of your mouth
do you think that I'm weird?
I like your kisses and I wish that you were here
all the time I got you on my mind all I do
reminds me of you
