

Thalles Cabral - The Final Ride

Tom: D

Intro: A Dbm A Dbm

I feel good?

I'm with you in Rockland, my dear

I can change my mood?

And for the first time I feel I have no fear

To follow this way

We're so far from the start

Just close your eyes

And see all your life

Passing by

We're so close now

And I can hear the voices

I can see the light?

It's the final ride

I've been travelling too long?

I can't picture this 'cuz it's already gone

So please, don't let go of my hand

Now I know how it's going to end

In dreams of mine

We're so far from the start

Just close your eyes

And see all your life

Passing by

We're so close now

And I can hear the voices

I can see the light?

It's the final ride
