

The 1975 - Fallin' For You

Tom: C
Intro: F G Am F

Verso:

What time you coming out?
We started losing light
I'll never make it right
If you don't want me round
I'm so excited for the night
All we needs my bike
And your enormous house
You said someday we might
When I'm closer to your height
Till then we'll knock around and see
If you're all I need

Refrão:

Don't you see me now
I think I'm falling, I'm falling for you
Don't you need me
I think I'm falling, I'm falling for you
On this night and in this light

I think I'm falling, I'm falling for you
Maybe you'll change your mind
I think I'm falling

Verso:

I'm caught on your coat again
You said oh no, it's fine
I read between the lines
And touched your leg again
I'll take it one day at a time
Soon you will be mine
Oh but I want you now
When the smoke is in your eyes
You look so alive
Do you fancy sitting down with me

Ponte:

Maybe 'cos you're all I need according to your heart
My place is not deliberate
Feeling of your arms
I don't wanna be your friend, I wanna kiss your neck
