The 1975 - Fallin' For You

```
Tom: C
                                                               G
                                                                                      Am
Intro: F
                                                                  I think I'm falling, I'm falling for you
         G Am F
Verso:
                                                                  Maybe you'll change your mind
                                                               G
                                                                  I think I'm falling
                  F
What time you coming out?
                                                               Verso:
    G
We started losing light
                                                                                        F
                                                                I'm caught on your coat again
    Am
I'll never make it right
                                                                     G
                                                               You said oh no, it's fine
             F
If you don't want me round
                                                                 Am
                                                                I read between the lines
          G
I'm so excited for the night
                                                               And touched your leg again
Am
All we needs my bike
                                                                            G
                                                               I'll take it one day at a time
             F
And your enormous house
                                                                Am
                                                               Soon you will be mine
     G
You said someday we might
                                                                          F
                                                               Oh but I want you now
           Am
When I'm closer to your height
                                                                           G
                F
                                                               When the smoke is in your eyes
Till then we'll knock around and see
                                                                Am
                                                               You look so alive
          G
If you're all I need
                                                               Do you fancy sitting down with me
Refrão:
                                                               Ponte:
  Don't you see me now
                                                                                      G Am
                                                                                               F
G
                                                               Maybe 'cos you're all I need according to your heart
                      Am
   I think I'm falling, I'm falling for you
                                                                                     Am
                                                                G
F
                                                               My place is not deliberate
  Don't you need me
G
                                                                Feeling of your arms
                       Am
   I think I'm falling, I'm falling for you
F
                                                                I don't wanna be your friend, I wanna kiss your neck
   On this night and in this light
                                                                (Refrão)
