

# The Academy Is... - Everything We Had

Tom: D

You were the only face i'd ever known  
 I was the light from the lamp on the floor  
 And only as bright as you wanted me to be  
 But i am no gentleman, i can be a prick  
 And i do regret more than i admit  
 You have been followed back to the same place i  
 Sat with you drink for drink.  
 Take the pain out of love, and then love won't exist  
 Everything we had, everything we had  
 Everything we had, everything we had  
 Is no longer there  
 ( D G )  
 It was the only place i'd ever known  
 Turned off the light on my way out the door  
 I will be watching wherever you go  
 Through the eyes of a fly on the wall  
 You have been followed back to the same place  
 I sat with you drink for drink.

Take the pain out of love and then love won't exist  
 Everything we had, everything we had  
 Everything we had, everything we had  
 Is no longer there, longer there  
 Well, you saw for yourself, the way it played out  
 For you, i am blinded  
 For you, i am blinded, for you  
 I am no gentleman, i can be a prick  
 And i do regret more than i admit  
 You have been followed back to the same place  
 I sat with you drink for drink  
 Take the pain out of love, and then love won't exist  
 Everything we had, everything we had  
 (you have been followed, you have been followed)  
 Everything we had, everything we had  
 (you have been followed, you have been followed)  
 Everything we had, everything we had  
 (you have been followed, you have been followed)  
 Everything we had  
 I'll be with you wherever you go  
 Through the eyes of a fly on the wall
