

The Band Perry - Lasso

Tom: G
Intro: G D D Am C (x2)

G D D Am C

Verso 1:

When I first laid eyes on you
Well, the night just felt so odd
You looked at me and the stars lined up
So I thought I'd heard from God
And I gave him my best shot

Refrão:

Loving you was like throwing a lasso around a tornado
I tried to hold on to
Took a ride on a tilt-a-whirl that sits on top of the world
Man, I thought I could show you
I've always been afraid of flying
But you can't blame a girl for trying

G D D Am C (2x)

Verso 2:

Felt like a pearl when I was holding your hand
So precious I forgot
You could have any girl but I only wanted one man

And you were everything I'm not ,still I gave it my best shot

Refrão:

Loving you was like throwing a lasso around a tornado
I tried to hold on to
Took a turn on a high trapeze swinging over the deep
I thought I could show you
I've always been afraid of flying
But you can't blame a girl for trying

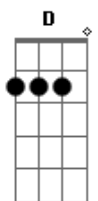

Ponte:

Like a vine bends a tree
To the ground ,I won't hold you down
I tried to climb just as high
But I found all the clouds touch the ground
In this small town
G D C G (x2)

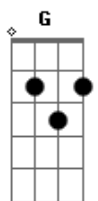

Refrão:

Took a ride on a high trapeze swinging over the deep
I thought I could show you
That I've always been afraid of flying
But you can't blame a girl for trying
