The Beatles - Not Guilty

Tom: C

```
         Am
Not guilty
     B7                Em
For getting in your way
          B7               E    E E7
While you're trying to steal the day

       Am
Not guilty
        B7              Em
And I'm not here for the rest
       B7               Em    Em
I'm not trying to steal your vest.

E                       E7
I am not trying to be smart
                        Am7
I only want what I can get
          Em7          Em
I'm really sorry for your ageing head
     Em            Em7
But like you heard me said
       Am
Not guilty.
        B7          Em
No use handing me a writ
         B7           Em    Em
While I'm trying to do my bit.

E                          E7
I don't expect to take your heart
                         Am7
I only want what I can get
```

```
                 Em7             Em
I'm really sorry that you're underfed
        Em              Em7
But like you heard me said
         Am
Not guilty.
