```
[Primeira Parte]

```
 Dbm                           A7M
When you began your drifting in the wind
                             Gbm
Disappearing up around the bend
    Gbm
Then you were gone, faded to the dawn
  Abm
Were you gonna stay?
        Ab                         Dbm
Or were you gonna come back 'round my way?
 Dbm                         A7M
To break my mind this time would be a shame
                              Gbm
Without you I would slowly go insane
  Gbm
And you recall, that's when I hit the wall
  Abm
But I don't care how far
  Ab
Gonna look for where you are
```

[Refrão]

```
 Dbm               Bm          Dbm
Behind the clouds, beyond the stars
                  A7M
Above the crowds in some lonely bar
  Dbm            E        Dbm
I'll meet you there, I swear I will
  Bb             A7M
Because I care and I got time to kill
  Gbm            Ab              Dbm
Please stop running, I'm back down to nothin'
 Dbm
To nothin'
     A
To nothin'
```

[Segunda Parte]

```
 Dbm                              A7M
I still feel you when I close my eyes at night
    A7M
I'm dealin' with the devil
          Gbm
I just might do somethin' bad, I'm crying when I laugh
         Abm              Ab
I'm trying to believe that one day we will meet
```
