

The Black Keys - Thickfreakness

Tom: **G** B(v3):

Transcribed by Ryan Wiggans
If you have any comments or questions e-mail me at

In the intro I think he uses a slide to make that effect, C:
which I don't have so
you'll have to figure that out by yourself. It sounds like a
lot of the slides
in this song are played with an actual slide instead of just D:
your finger which
makes it sound better, but you can do it without one.

Key: D(v2):

p=pull b=bend /=slide =harmonic v=vibrato
2b>4=bend 2nd fret to 4

Order: Not sure about the 7's part>

Solo - **C** - B(v2) - **C** - B(v3) - D(v2) - **A** - Outro

A: Solo:
A second guitar plays this part to back up the solo:
