

# The Bones of JR Jones - The Plan

Tom: G

If you're leaving take me too

Heaven knows I can't go anywhere without you

And I would pay for gas

We could laugh about our troubles that we're leaving in the past

The radio is on the fritz

But I don't mind because the radio is shit

There's no songs about kids like us

About the hopes that we have and refuse to give up

Adeleine, Adeleine, Adeleine

Have a little faith in me

C G C G D

I know that times are tough

I promise these hard knocks are nothing honey, keep your chin up

So tired of being poor

Can't stand the thought of you scrubbing toilets in this town anymore

I Got paid just yesterday

Well thats 200 dollars plus the change in the ashtray

We could drive all night

Find a town where noone knows us and start a new life

Adeleine, Adeleine, Adeleine

Have a little faith in me

C G C G D

G D G C G D G C G D G C G D G C

G

And God knows where we'll go

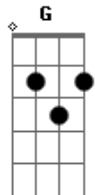

But we have each other and that's all I need to know

You know it's darkest before light

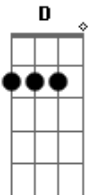

You better pack yourself a sweater

Because honey it's gonne be cold tonight
