tom:

Intro: C G D Em  
C G D Em

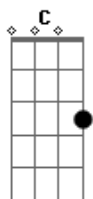

I'm wide open  
But don't I please you anymore?  
You're slipping away from me  
You're drifting away from me  
I'm wide open  
But don't I please you anymore?  
You're slipping away from me  
You're slipping away from me  
Slow me down  
It's getting away from me  
It's getting away from me  
It's getting away from me  
Slow me down  
It's getting away from me  
It's getting away from me  
It's getting away from me  
( C G D Em )

I'm wide open  
But I couldn't see it anymore  
You're drifting away from me  
You're slipping away from me  
( C G D Em )
