RIFF (you can strum with a x-x-0-4-0-2 ? rather than the riff)
Everybody wants to rule the world
Must be something we get from birth
One truth is we never learn
Satellites will make space burn
D               Bm
We've been told to keep the strangers out
D               Bm
We don't like them starting to hang around
D               Em
We don't like them over town
```

Gbm
Across the world we are going to blow them down
CHORUS
RIFF
The reign of the super powers must be over
So many armies can't free the earth
Soon the rock will roll over
Africa is choking on their Coca Cola
D                           Bm
It's a one a way street in a one horse town
D               Bm
One way people starting to brag around

You can laugh, put them dowm

Charlie don't surf though he's got a gun
Charlie don't surf think that he should
Charlie don't surf we really think he should
