

The Cosmic Surfer - Cosmic Surfer

Tom: **E**

m7 I had a dream, a dream last night

A dream about the ocean

Of riding on the ocean

A dream of cosmic flight

Out of the dark on a moonless night
Came a cosmic surfer
I was a cosmic surfer

On a board made of rays of light

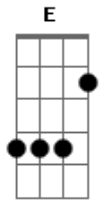

Pushed on a wave pure energy
Riding along the positivity
I'm off to a place where no one has been
Forever awake, living the dream

I rode the waves all through the sky

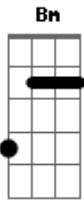

I went on them forever
They opened up forever
What a universal sight

[Final] **D** **Em**
