

# The Dear Hunter - Whisper

Tom: E  
Intro: E A Gbm E Gbm

E  
There's shadows on the walls  
Of moments far too troubling to recall  
All the settings and the scenes that signal suffering  
Impassioned pleas that ended in a whisper  
E  
In all the lessons learned  
Were they worth the ash from all the bridges burned?  
Standing, stomping in the damage and the ruins of a slip of tongue  
With tragic consequences

A  
I think that we've all made our gravest mistakes  
On the greatest intentions that we're too stubborn to let go  
With this little time before i go  
Gbm

E  
I'll open up my mouth, and scream it out to cast my voice into the crowd

E  
Now that you're alone

A  
Is it really so impossible to know

All the actions and reactions pinned against each other

Never really end just how you want it
