All day 'cause I don't know better
All day bettin' on a chance
Don't wanna watch you slip through my hands
Off the ground like we used to dance
Remember how we never had no plans
                                Am
Straight to my head like I'm floating above the clouds
All I see is stars
                                      Am7
                         Am
Far from the panic don't know how I live without
Live without

                Am

Show me the light
Deep in your eyes
I can't deny
That's paradise
Right here in Malibu
Wish I could stay with you
