

# The Florist - Vacation

Tom: C

C  
I don't know how to be  
What I wanted to be when I was five  
Sometimes blue eyes sometimes green

C  
Bike rides  
Snow hikes and Christmas lights  
Sometimes freezing sometimes warm  
I don't know if I can love that anymore

F  
Cuz I got it all

C  
Got it all mistaken

F  
For a meaningful life and a fun family vacation

F  
C  
Like when I used to ride roller coasters with my Dad

F  
C  
When a swimming pool in a hotel was a gift from God

C  
Like, love, we're like a family  
I don't know how to be

Maybe I just wanna get married  
Or maybe I just want to fall asleep

F  
But at least I know that the world is spinning

When we're tangled in the bed sheets C

F  
And at least I know that my Mom is breathing

When we talk on the phone C

F  
And at least I know  
That my house won't burn down  
Down to the ground

C  
Or maybe it will

F  
If I've been in love before  
And I'm pretty sure I have  
Then I'm pretty sure my house could burn down

Down to the ground tomorrow C

F  
If I've been in love before  
And I know that I have  
Then I know that my house could burn down

Down to the ground tomorrow C
