

The Fratellis - Ole Blank N Blue Eyes Solo

Tom: **Bb**

There are two tabs on here and only one had the solo and it was horribly horribly wrong so here is the correct version. some of the chords in the other tabs dont sound accurate either but im not touching them bc its too much work!
enjoy

2.

Acordes

the song fades out while continuing the first bars, the one above this is a one time variation so just go back to the original riff. if your playing at home finish however you want, if its live, since the song fades out you could just play the solo riff (including the variation) 4 times
1. and then end on the root chord. i saw them live but i cant remember how they chose to end it unfortunately
