

# The Glorious Sons - The Last Good Thing

Tom: C

Intro: F G C

I saw her in the halls of that old high school  
She was as pretty as the sun on the morning dew  
I never said a word I knew the boys had talked her silent

She had a look on her face like she hated the world  
But it wasn't the look of an angry girl  
She looked like a woman that no one could catch crying

I was nothin to her, she was too pretty for me

I was a dirtbag she was a jaded queen

She moved east and I stuck around

She was the last good thing left in this town

She was the last good thing left in this town

She was the last good thing left in this town

She moved east and I stuck around

She was the last good thing left in this town

( F G C )  
( F G C )

I started working my father's shop

I'd just waste his money and watch the clock

I got a house on the highway filled with cracks and silence

I've been waiting for years I've been lookin in mirrors

I've been dreamin of ways to run from here

I've been lookin inside myself for somethin I'm not findin

Well every now and then she comes back around

And I see her sometimes when I go out

I just smile and nod and I hide in the crowd

She was the last good thing left in this town

She was the last good thing left in this town

She was the last good thing left in this town

She moved east and I stuck around

She was the last good thing left in this town

( F G C )  
( F G C )

( F G C )  
( F G C )

I remember being young no, I didn't have a clue

That the ones I looked up to were just as confused

I remember knowing everything would be alright

I wish I felt younger than I feel tonight

I remember knowing everything would be alright

I wish I felt younger than I feel tonight

She was the last good thing left in this town

She was the last good thing left in this town

She moved east and I stuck around

She was the last good thing left in this town

She was the last good thing left in this town

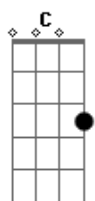

She was the last good thing left in this town

She moved east and I stuck around

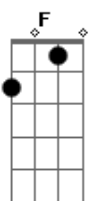

She was the last good thing left in this town

[Final] G F C
