

The Killers - A Great Big Sled

Tom: E

Tabbed by: Nick Van Den Broeke

Regular tuning: EADGBE

Chords used:

Intro: F G C F Em Dm

Verse 1:

The snowman is shaping up to be an eight, but not out of ten
The robots awake to find out they've been taped down wondering when
They'll break through these chains,
but little boys have action toys for brains
I'm living proof it can last a long time
Now the girls up the street are innocent and sweet
well they're all in bed
They got their makeup and dreams of wonderland
sprinkled inside their heads
Soon they will change,
but tonight Hollywood Hills never seemed so strange

Their mother's praying it'll last a long time

Chorus 1:

I wanna roll around like a kid in the snow
I wanna relearn what I already know
Just let me take flight
dressed in red through the night on a great big sled
I wanna wish you Merry Christmas... Ho Ho Ho

Verse 2:

Now the boys are all grown up
out there working their fingers to the bone
they go around chasing them girls on the weekend
you know they still can't be alone

I've been racking my brain with thoughts of peace and love
how on Earth did we get so mixed up
I pray to God it don't last a long time

Chorus 2:

I wanna roll around like a kid in the snow
I wanna relearn what I already know
Just let me take flight
dressed in red through the night on a great big sled

Bridge: (sung by Toni Halliday)

I hear the sound of bells
There's something on the roof

I wonder what this night will bring

Chorus 3:

I wanna roll around like a kid in the snow
(I hear the sound of bells)
I wanna relearn what I already know
(There's something on the roof)
Just let me take flight
dressed in red through the night on a great big sled
(I wonder what this night will bring)

Outro:

I wanna wish you Merry Christmas (can't do that)
I wanna wish you Merry Christmas (can't do that)

F Em Dm C (final chords played with bass and strings)

Acordes
