

The Killers - A Matter Of Time

Tom: **D**

Em
You're looking for a way out
Bm A Em
I can feel it
Em
Come on, show me where it hurts
Bm A Em
Maybe I can heal it

Em
Your feelings are your own
Bm A Em
Now you keep 'em under lock and key
Em
You got me drivin' through the streets
Bm A Em
For an answer to the mystery

G D A
The world's still weak on Charleston Avenue
G D A
Outside that vacant Starlight Motel I see you
G D
Laughing with your girlfriends
A D A Em
Not a care in the world, not a burden on your mind

Em
It was a matter of time

Em
There's a panic in this house
Bm A Em
and it's bound to surface
Em
Just walkin' through the front door
Bm A Em
makes me nervous

Em
It's creepin' up the floorboards,
Bm A Em
got me wondering where I stand
Em
I cannot put out the fire,
Bm A Em
I got a book of matches in my hand

G D A
When we first met, headstrong and filled with doubt
G D A
Made just enough hustling tables that summer to take you out
G D A D

I was fallin' back on forever when you told me about your heart
You laid it on the line
A Em
G D
Laughing with your girlfriends
A D A G
Not a care in the world, not a burden on your mind
(You laid it on the line)

G A D A G
It was just a matter, It was a matter of time

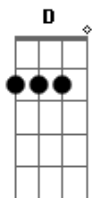

G A
We found ourselves a place
D G
We belong in it forever
D A
Ain't that what it's all about?
G A
Make the promise and keep it
D G
Come hell or high water
D A G
We'd figure it out

G A
It was the night, it was the moon
D G
It was the green grass in the garden
G A
The victory and the sin

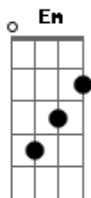

G A
I know you're weary, look at me
D G
Flailin' in the corner
G
Here's the towel
A G
Go on, throw it in

G D G
It was a matter of time
G D A
Can't you see that it's tearing me up inside?
G A
Look what's laying at our feet
G A
That's the wreckage of broken dreams
D A
And burned out
G A G
And it's here on our street
