The Killers - Believe Me Natalie

Tom: C

Ok, its a very simple song, consisting of two chords repeated eight
times in a row each.

Tuning: Standard

Verse

Chorus
A bit of heavy palm muting before returning to the above

As the chorus finishes, the guitar goes into this pattern before
resuming its normal course.

That's all I can be bothered with for now, anyway. I might post
up some of the stuff that appears later in the song at a point
in the future, but dont hedge your bets on it.
