

The Killers - Sweet Talk

Tom: **A**

Tuning: Standard (EADGBE)

Im pretty sure this is correct listened to it a lot of times, chords are in sync with strum steady until they change. first tab on this site so please comment. :)

Intro:

Bass riff..

Verse 1

lift me up on my honour
Take me over this spell
Get this weight of my shoulder
I carried it well

G
loose these shackles of pressure
Shake me out of these chains

Em **A**
Lead me not to temptation

G
Hold my hand harder

D
ease my mind

Em
Roll down the smokescreen

A
and open the sky

Chorus:

D
let me fly
then I need a release from
these troubles of mine
fix my feet
when they're stumbling

G
And well you know it hurts sometimes

A
you know it's going to bleed sometimes

Verse 2

Dig me out from this thorn tree
Help me bury my shame

Keep my eyes from the fire
they can't handle the flame

G
they've cut out from my brothers
when most of them fail

Em **A**
I carried it well

Chorus:

D
let me fly
then I need a release from
these troubles of mine
fix my feet
when they're stumbling

G
I guess you know it hurts sometimes

A
you know it's going to bleed sometimes

D
now hold on
I'm not looking for sweet talk
I'm looking for time
time for towering sweet folk

G
all because it hurts sometimes

A
you know it's going to bleed sometimes

(unsure)
hold on

D
you know it's going to hurt sometimes

G
when you call me
A **D** **D** **A** **D** **A**
Hold on Hold on Hold on

D
I'm going to come with that symphony home
And make it mine
And this pleasure is mine
mark my way

G
see all these pestilence pills, expert on pills
came to drag me down

Em
so I could use this to shelter
what could I've found
