                                                               I love that girl whatever she?s done and though it hurts me
Met a girl fell in love, glad as I can be
                                                               deeply
Met a girl fell in love, glad as I can be
                                                               [Refrão]
But I think all the time is she true to me
                                                               Cause there?s nothing in this world to

Cause there?s nothing in this world to

Stop me worrying ?bout that girl
                                                               It hurts me so when she says nothin? I really feel like diein?
