Intro: B
                                                        When I was a child
                                                                        D
    D
                                                        I never felt like a child
Every night
                                                        I felt like an emperor
      D
When we say goodbye
                                                                     Em
                                                        With a city to burn
I know that I can't
                                                                   D
                                                        I got down on my knees
              Em
See myself as a man
                                                                        D
               D
                                                        Begged the man in the trees
When I put on that suit
                                                                 С

                                                        To give me an answer
I don't have to stay mute
                                                                    Em
                                                        Je ne veux pas penser
               C
I can talk all the time
