

# The Luke Branch - Naive

tom:  
 You said I'm a loser  
 You told me to forget about all my plans  
 But look where I'm now  
 I know you were wrong 'cause I'm way better today

And I hope someday you find your way  
 And I hope you never find someone  
 That treats you like you treated me, so bad

'Cause you said these lies too many times  
 Oh, you told me these lies too many times  
 And maybe

I was just so so naive  
 I was just so so naive

You cut all my wings  
 You told me to keep my feet on the floor  
 But look where I'm now  
 I know you were wrong 'cause I'm way better today

And I hope someday you find your way

And I hope you never find someone  
 That treats you like you treated me, so bad

'Cause you said these lies too many times  
 Oh, you told me these lies too many times  
 And maybe

I was just so so naive  
 I was just so so naive  
 I was just so so naive

(Alright, let me tell you something!)

Please don't say that this is unfair  
 'Cause I told you many times and you didn't really care  
 You know, I'm not sayin' it was only your fault  
 My friends warned me many times but I didn't care about

So please don't say that this is unfair  
 'Cause I told you many times and you didn't really care  
 You know, I'm not sayin' it was only your fault  
 My friends warned me many times but I didn't care about  
 Didn't care about  
 Didn't care about

## Acordes
