

The Magic Numbers - I See You, You See Me

```
Tom: G
                                                                Rising, rising in my veins
   (intro) G C
                                                                Looks like it's happened again
I never wanted to love you, but that's ok
                                                                You always looked like you had something else on your mind
I always knew that you'd leave me anyway
                                                                But when I try to tell you, you'd tell me never mind
But darling when I see you, I see me
                                                                But darling when I see you, you see me
                                                                I wanna tell you that I'll never love anyone else
I asked the boys if they'd let me go out and play
They always said that you'd hurt me anyway
                                                                You wanna tell me that you're better off by yourself
But darling when I see you, I see me
                                                                But darling when I see you, you see me
                                                                (C D )
And it's alright I never thought I'd fall in love again
Its alright I look to you as my only friend
                                                                This is not what I'm like
Its alright I never thought that I could feel this something
                                                                This is not what I do
Rising, rising in my veins
                                                                This is not what I'm like
Looks like it's happened again
                                                                I think I'm falling for you
I never thought that you wanted for me to stay
                                                                I never thought - This is not what I'm like
                                                                I never thought - This is not what I do
                                                                I never thought - This is not what I'm like
So I left you with the girls that came your way
                                                                I never thought - I think I'm falling for you
But darling when I see you, I see me
                                                                I never thought
                                                                I never thought
                                                                              Fm
I often thought that you'd be better off left alone
                                                                That I could feel this something
Why throw a circle round a man with broken bones
                                                                Rising, rising in my veins
But darling when I see you, I see me
                                                                And it looks like
                                                                I feel this something
Its alright I never thought I'd fall in love again
                                                                Rising, rising in my veins
Its alright I look to you as my only friend
                                                                Looks like it's happened again
Its alright I never thought that I could feel this something
