

The Maine - How Do You Feel?

```
Give me your voice and I'll give it a listen
Intro: G A
                                                                Are you complete or is something missing?
Verso 1:
                                                                So tell me
Dearly depressed and broken hearted
                                                                Do your hands shake?
I'd like to let you know that boys cry too
                                                                Does your heart break?
Don't let them tell you how you're feeling
                                                                When the earth quakes
I wonder why nobody's asking you
                                                                Whatever it is
Pré-Refrão:
                                                                Whatever it isn't
Are you free or are you in sorrow?
                                                                Make sure that it's real
Are you free or are you being borrowed?
                                                                Oh, now, how do you feel?
How do you feel?
What's your condition?
                                                                D A G
You are alive but are you living?
                                                                G A
Give me your voice and I'll give it a listen
                                                                                AGAGA
Are you complete or is something missing?
                                                                How do you feel?
So tell me
                                                                Do your hands shake?
Do your hands shake?
                                                                Does your heart break?
Does your heart break?
                                                                When the earth quakes
                                                                Are you free or are you being borrowed?
When the earth quakes
Whatever it is
Whatever it isn't
                                                                How do you feel?
Make sure that it's real
                                                                What's your condition?
Oh, now, how do you feel?
                                                                You are alive but are you living?
Verso 2:
                                                                Give me your voice and I'll give it a listen
G A
To all the dearly depressed and broken hearted
                                                                Are you complete or is something missing?
The inbetweens and all the torn ones too
                                                                So tell me
You're not alone in how you're feeling
                                                                Do your hands shake?
I wonder why nobody's asking you
                                                                Does your heart break?
Pré-Refrão:
                                                                When the earth quakes
Are you free or are you in sorrow?
                                                                Whatever it is
                                                                Whatever it isn't
Are you free or are you being borrowed?
Being borrowed
                                                                Make sure that it's real, real, real
Refrão:
                                                                Now, how do you feel?
How do you feel?
                                                                Final:
                                                                G A
What's your condition?
                                                                G A
You are alive but are you living?
```
