The Maine - (Un)lost

Tom: A
Intro: A

```
              A                            D
I'm not looking for anything in particular
      Gbm                            E
But I'm far more desperate than you think
    A                                D
I wonder what it's like to be the Universe
      Gbm                      E
Experiencing itself ironically

D                        A
   I need some space to run around
Gbm                      E
   I'll always have the underground
D                                A
   I'll build my road despite the cost
            Gbm
   I'm not looking to be found
E
   No, no not at all

D                              A
   I'm unaware where I'm going
                         Gbm
   Or if I'm going anywhere at all
                          E
   But I know I'll take the leap
   If it is worth the fall
D                                  A
   So as long as the blood keeps flowing
              Gbm
   I'll set a sail and swim across
                    E
   I'm not looking to be found
                      A
   Just want to feel unlost

A                            D
With my eyes closed this feels like home
      Gbm                        E
I drift in my own head and all I really know is
      A                       D
Whatever this is doesn't get easier
          Gbm          E
So take it slow, just take it slow

D                              A
   Between the silence and the sound
```

```
Gbm                          E
   I'll never lose the underground
D                                A
   I'll build my road despite the cost
            Gbm
   I'm not looking to be found
E
   No, no not at all

D                              A
   I'm unaware where I'm going
                         Gbm
   Or if I'm going anywhere at all
                          E
   But I know I'll take the leap
   If it is worth the fall
D                                  A
   So as long as the blood keeps flowing
              Gbm
   I'll set a sail and swim across
                    E
   I'm not looking to be found
   No, not at all

D                              A
   The World disarms before a flash
      Gbm                    E
And you are not allowed to be anybody else
D                                A
   Control what you can confront what you can't
                Gbm      E                    A
And always remember how lucky you are to have yourself

D  A   Gbm   E (2x)

D                              A
   I'm unaware where I'm going
                         Gbm
   Or if I'm going anywhere at all
                          E
   But I know I'll take the leap
   If it is worth the fall
D                                  A
   So as long as the blood keeps flowing
                         Gbm
   I'll set a sail and swim across
                    E
   I'm not looking to be found
                    A
   Just want to feel unlost
```
