

## The Neighbourhood - Wiped Out

```
Tom: G
                                                                 upset.
                                                                 I can feel the way that I'm feeling, the feeling inside my
Lost and afraid, young and innocent but getting older.
                                                                 head.
I don't wanna be alone, I don't wanna be alone.
                                                                 I got the pressure that's pushing my buttons, and making me
Short burning blade is uneasier, disguise your soul.
                                                                 think about death.
I don't wanna be alone, I don't wanna be alone.
                                                                 Somebody find me and fast
My current state is heavy, hope it's a phase or something.
                                                                 Look what I did to myself and my friends
         Am G
Don't let me go.
                                                                 Emotions and paying the rent
                                                                 Emotions and paying the rent
Am
                                                                 SOLO'S PART
Up and away, I'm an alien, I need a moment.
                                                                 I'm back and forth, I think I'm going crazy
I don't know what to believe, all I wanna do is leave.
                                                                 I'm back and forth, I can't make up my mind
What can I say that would make you see? Make you need me?
                                                                 I'm hoping that I'm never sati
Maybe I won't ever know, maybe I'll end up alone.
                                                                 I'm hoping that I'm never satisfied
Running in place. In circles, in circles with you.
                                                                 I'm back and forth, I think I'm going crazy
Don't mind me
                                                                 I'm back and forth, I can't make up my mind
Out in the rain
                                                                 I'm hoping that I'm never sati
                                         Am G
                                                        C
But I didn't think it'd be you to watch me go
                                                                 I'm hoping that I'm never satisfied
                     D
I don't wanna let you down
                                                                 I^{\,\prime}\text{m} back and forth, I think I^{\,\prime}\text{m} going crazy
               Am
So promise you won't let me drown
                                                                 I'm back and forth, I can't make up my mind
                                                                I'm hoping that I'm never sati
I can feel the way that I'm feeling, the feeling inside my
head.
                                                                 I'm hoping that I'm never satisfied
                                                                 I'm back and forth, I think I'm going crazy
I got the pressure that's pushing my buttons, and making me
                                                                 I'm back and forth, I can't make up my mind
think about death.
I got some mixed emotions about how I need to handle the
                                                                 I'm hoping that I'm never sati
                                                                 I'm hoping that I'm never satisfied
I get off of it because of the money, it's making my tummy
```
