

The Oak - Cosmic Rain

Tom: **G**

Raining days kissed my childhood
It brought a lot of moths
As a message to my heart
They took me along the neighborhood
To some realm that I could spent my devotion
My eyes couldn't discern what was in illusion
Where the rain comes from
Washing all over the universe
(**Gm Dm F**)

May the rain wash
The dust covering my eyes
May the rain wash
The fear of what life can hide

May the rain wash
All my shades
May the rain wash
All the whispers
(**Gm Dm F**)

Every drop of rain along my skin
Brings me visions of my destiny

Unlashing sparks of my metamorphosis
Itching all the scars in my body
All the moths carries me
Along the bridge
As I get closer more it itches
Unlashing sparks of my metamorphosis
Itching all the scars in my body

My body

Let the rain wash

(The dust covering my eyes)
Let the rain wash
(The fear of what life can hide)
Let the rain wash
Let the rain wash

There, on the land where I was marked within
Where all the transformations had to begin
Here i'm going in
In the heavy raining water i'm hoping the awakening
Bright rain
Shining rain
Among the space
And may the rain
