

The Oak - Misunderstood Home

Tom: G

I I wish I could hug the world

And give it a lot of love

Oh cold, cold world

I wish I could reach your heart

I've been in love with this atmosphere

Since I started to stare the sky from here

Heaven, how can I express

How thankful I am

(E B)

All this sorrow that we have to live with

And tomorrow we are not sure if it can be

Fix

All that's left is hope

In beat the challenges and revive love

I've been in love with this atmosphere

B A B E Dbm B

Since I started to stare the sky from here

Heaven, how can I express

How thankful I am

(Dbm)

I might be mistaken in here

In all this bipolarity

But I'm forced to say

I'm glad to be in here in all the ways

(Gbm Dbm B)

I've been in love with this atmosphere

Since I started to stare the sky from here

Heaven, how can I express

How thankful I am

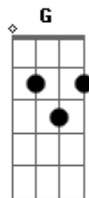

(B Gbm Dbm E B)

So beautiful is this skyline

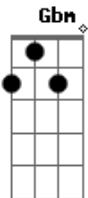

Let us fall and enjoy all our pride
