Tom: Bb

Intro: Em G A (3x)
(Em G A B)

Afinação: Eb Ab Db Gb Bb

I am strong, but love is evil
There's a version of perversion that is only
for the lucky people
Take your time and do with me what you will
I won't mind
You know I'm ill
You know I'm ill

So hit me like a man
and love me like a woman
Bury the side, look me in the eyes, I want it
One will give you hell
one will give you heaven

Hit me like a man
and love me like a woman
Love me like a woman

Love is strong, but I am evil
You are wrong about me
Take your time

I will play with me until
You can hear the children scream like they're stuck inside
a dream like you

So hit me like a man and love me like a woman
Bury me alive, I can see it in your eyes, you want it

Some will give you pain,
Some will give you pleasure

Hit me like a man
and love me like a woman
Love me like a woman

Don't you run away, run away from me
I will run away from you
Don't you run away, run away from me
I will run away from you

Hit me like a man, love me like a woman
Found the Devil deep inside, can't you see I'm what I wanted
some will give you hell

some will give you heaven

Hit me like a man
and love me like a woman
Love me like a woman
Love me like a woman
Love me like a woman
