

The Rasmus - Paradise

Tom: Bb

I'm dead but i'm living

I Play the part i've been given
Still kicked outta heaven

I'm into nothing new

Every day is a battle

I made a deal with the devil
And now i'm deep into trouble

So tired i was trying to find a better way but every day's the same

I'm trying to break the numbness and it's driving me insane

You could be my savior you could be just what i need

So i lay down and pray for someting better

Go ahead and leave me paralyzed
There's nothing left to sacrifice
In hell i'm shooting paradise
i'm ready so i'll close my eyes

This is my paradise

This is my paradise

It's gonna hurt but i'm ready

It's clear where i'm heading
Don't call paramedics

I'm into nothing new

I'll be gone in a minute

I'm not afraid to admit it
So wrong but i love it

So tired i was trying to find a better way but every day's the same

I'm trying to break the numbness and it's driving me insane

You could be my savior you could be just what i need

So i lay down and pray for someting better

Go ahead and leave me paralyzed
There's nothing left to sacrifice
In hell i'm shooting paradise
i'm ready so i'll close my eyes

This is my paradise

This is my paradise
