tom:
Intro: **D** **A** **Bm** **G** **D**

D
It was Christmas Eve in the snowbound west
A
I was ridin' alone, just a man and his vest
Bm
Stars were shining, the air was cold
G
When I heard a cry from the canyon below
D
There he was, a colt so young
A
A broken leg and his hope undone
Bm
But his eyes still burned like a midnight flame
G
And I knew right then, he'd be saved again
A
Oh, miracles ride on Christmas night
G
When hearts are strong, and the stars shine bright
A
With a little faith and a helping hand
G
We can heal the broken in this promised land
D **G** **D**
Oh-oh, oh-oh, a Christmas ride tonight!
D
I took him home to the old red barn
A
Wrapped him up safe from the winter's harm
Bm
Grandpa's words rang in my mind
G
?The spirit of Christmas is the healing kind?
D
I worked through the night with my hands and soul
A
Bound his leg, set a brand-new goal
Bm
By morning light, he took a stand
G
With wobbly steps, he touched my hand
A
Oh, miracles ride on Christmas night
G
When hearts are strong, and the stars shine bright
A
With a little faith and a helping hand
G
We can heal the broken in this promised land
D **G** **D**
Oh-oh, oh-oh, a Christmas ride tonight!

D
Then came a sound from the northern wind
A
A jingle of bells and a laugh that grinned
Bm
There stood Santa with his sleigh and crew
G
?My friend, we've got work for you!?
D
The colt stood tall, his spirit ablaze
A
Santa smiled, ?This is Christmas grace?
Bm
We hitched him up, and away we flew
G
Through the starry night, spreading dreams anew
A
Oh, miracles ride on Christmas night
G
When hearts are strong, and the stars shine bright
A
With a little faith and a helping hand
G
We can heal the broken in this promised land
D **G** **D**
Oh-oh, oh-oh, a Christmas ride tonight!
