

# The Red Vinyl Strings - One Or Two

tom:  
Capostrate na 2ª casa

Maybe we should  
Keep in touch  
'Cause you're making me  
Feel like I'm not stuck  
In a world that says that you're no good  
In a world that says who are you?  
Save my soul from this holy place  
And I'll save your soul from all disgrace  
Come on here, sit by my side  
I think that we just look alike  
Chat with me, but not a chit-chat  
We can still make it through  
Maybe you just want too  
That's the problem  
It's just me and you  
This world demands more than one or two  
Maybe we should  
Keep in touch  
'Cause you're making me  
Feel like I'm not stuck  
In a world that says that you're no good  
In a world that says who are you?  
As Turner used to say

Just wanna be one Stroke  
C'mon put on your knee socks  
And come along  
We can still be together in this  
More than friends, like a  
Couple of kids  
Stay by my side  
Trust in my eyes  
We should be fighting for us  
We're only fighting for those  
Save my soul from this holy place  
And I'll save your soul from all disgrace  
Come on here, sit by my side  
I think that we just look alike  
Chat with me, but not a chit-chat  
We can still make it through  
Maybe you just want too  
That's the problem  
It's just me and you  
This world demands more than one or two  
Chat with me, but not a chit-chat  
We can still make it through  
Maybe you just want too  
That's the problem  
It's just me and you  
This world demands more than one or two
