

# The Reing Of Kindo - Catch The Gleam

tom:

Intro: **Dm** **Em** **A** **Dm** **Em**

What I found is golden  
Set sail in a dream  
Waves upon the ocean  
Beneath sky serene

You should see it with your own eyes  
The things we never notice  
You can see it with your own eyes  
Keep you burning bright

What I found is golden  
Set sail in a dream  
Taken to the shoreline  
And begin to catch the gleam

As the story unfolds  
From the darkest of hours  
You can see the whole world spring the line  
And don't hesitate to consider the possibility

Sometimes you might lose your way  
And sometimes we wonder how  
We'll make it through the day  
Through the day

Sometimes we all fall apart  
And you know the sunlight  
Hides behind the skies of grey  
Skies of grey

( **E** **D** **E** **D** )

Words cannot be spoken  
And fail to describe  
The depth of our emotions  
From canyon to sky

Well I can't understand  
Why the wind blows me in
