

The Reing Of Kindo - Catch The Gleam

tom:

Intro: Dm Em ^A Dm Em

What I found is golden

Set sail in a dream

Waves upon the ocean

Beneath sky serene

You should see it with your own eyes

The things we never notice

You can see it with your own eyes

Keep you burning bright

What I found is golden

Set sail in a dream

Taken to the shoreline

And begin to catch the gleam

As the story unfolds

From the darkest of hours

You can see the whole world spring the line

And don't hesitate to consider the possibility

Sometimes you might lose your way

And sometimes we wonder how

We'll make it through the day

Through the day

Sometimes we all fall apart

And you know the sunlight

Hides behind the skies of grey

Skies of grey

(E D E D)

Words cannot be spoken

And fail to describe

The depth of our emotions

From canyon to sky

Well I can't understand

Why the wind blows me in

Acordes

To unwelcoming harbors of night

I don't hesitate to consider

What's gotten into me

Sometimes you might lose your way

And sometimes we wonder how

We'll make it through the day

Through the day

Sometimes we all fall apart

And you know the sunlight

Hides behind the skies of grey

Skies of grey

(E7M)

Don't set your anchor down

Until you've reached the shore

Upon the hallowed ground

Your soul becomes restored

Take the time you need

Before you cast to sea

The golden ways concede

We all have caught the gleam

(Gbm B Bm E)
(Gbm Ebm Ab Dbm)
(Db Ebm)

Sometimes you might lose your way

And sometimes we wonder how

We'll make it through the day

Through the day

Sometimes we all fall apart

The swell of a storm

Can set our ships to violent sway

Violent sway
