

The Rolling Stones - Cant You Here My Knocking

Tom: **G**

CAN'T YOU HEAR **ME** KNOKCING

This song is divided in two parts, the first one is the rythm (by Keith) and the other is the solo (by Mick Taylor). The first part is in **G** tuning (DGDGB**D**) and the other is in standard tuning.

You should play the rythmic with a DoublePickup on a Telecaster (Custom) with the neck pickup.

For the solo, it's a heavy LesPaul sound with sustain, played on the neck pickup too.

For both sections, a valve amp is required...

So here it is...

b(1t): bend of one tone
v v v v v v: vibrato
s: slide
po: pull off
h: hammer on
