                                                                                                                                                                                                                       I taught her how to speak
I taught her all she knows
      You'll pay with your life
                                                                                                                                                                                                                       I taught her how to eat
And I got my ears
                                                                                                                                                                                                                       I half invented her
And I got my eyes

And I got my narks
