

The Rolling Stones - Jump On Top Of Me

Tom: **F**

I've been working so hard i've been feeling the pain
 I got stains in my head my legs feel limp
 Don't wanna hear no noise don't wanna hear you curse
 I need peace of mind don't you make no fuss

Jump on top of me baby
 Jump on top of me baby
 Jump on top of me girl and give it to me nice and slow

Well there's too much talk about this and that
 And the women think i better feed the cat

We're fresh out of beer could you answer the phone
 Would you call this please tell that i'm leaving home

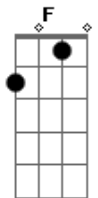

(chorus)
 (guitar solo - over **F e Bb**)

(chorus)
 well when we first met we were both so young
 we didn't give a damn on how the clock would run
 but time is right and pics are full of you
 cause it's getting late what would you like to do

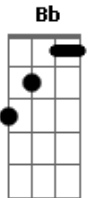

(chorus)
 i can't stand it when the sun comes up
 gonna need some comfort cause i can't stand up
 i'm gonna shut the blimes and gonna shut the shades
 and tell the maid mind as well go for the day

(chorus)
