The Script - Before The Worst

```
   C    D    Em    Em    (x3)

Em
   It's been a while since the two of us talked
Em
   About a week since the day you walked
C
   Knowing things would never be the same

   With your empty heart and mine full of pain

Em                                        Em
   So explain to me, how it came to this

   Take it back to the night we kissed
                     C
   It was Dublin city on a Friday night
         D                        Em
   You were vodkas and coke, I was Guinness all night

Em
   We were sitting with our backs against the world
                                        C
   Saying things that we thought but never heard
D
   Who would have thought it would end up like this?
Em
   Where everything we talked about is gone
Em                                   D
   And the only chance we have of moving on

   Is try to take it back
                         C
   Before it all went wrong

         D                Em
Before the worst, before we mend
                 Em
Before our hearts decide
                     C
It's time to love again
         D                Em
Before too late, before too long
                         Em
Let's try to take it back
                     Em
Before it all went wrong

Em
   There was a time, that we'd stay up all night
Em
   Best friends talking till the daylight
C
   Took the joys alongside the pain

   With not much to loose, but so much to gain

Em                                        Em
   Are hearing me? Cause I don't wanna miss,

   Set you a drift on memory bliss
            C
   It was Grafton Street on a rainy night (ooh)
         D                        Em
```

```
   I was down on one knee and you were mine for life
Em
   We were sitting with our backs against the world
                                        C
   Saying things that we thought but never heard
D
   Who would have thought it would end up like this?
 Em
   Where everything we talked about is gone
Em                                   D
   And the only chance we have of moving on

   Is try to take it back
                         C
   Before it all went wrong

C         D                Em
Before the worst, before we mend
                 Em
Before our hearts decide
                     C
It's time to love again
         D                Em
Before too late, before too long
                 Em
Let's try to take it back
                     Em
Before it all went wrong

C                 Em
If the clouds don't clear
                 D
Then we'll rise above it, we'll rise above it whoa
C                 Em
Heaven's gate is so near
                 D
Come walk with me through
Just like we use to, just like we use to yeah

C    D    Em    Em
                 Yeah

C    D
                         D

                     C
Before it all went wrong

C         D                Em
Before the worst, before we mend
                 Em
Before our hearts decide
                     C
It's time to love again
         D                Em
Before too late, before too long
                         Em
Let's try to take it back
                     Em
Before it all went wrong (it all went wrong)

C    D    Em    Em    (x2)

C                         D
   Let's try to take it back

Before it all went wrong.
