

The Something Specials - Love (Feat. Taylor Olin)

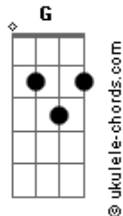

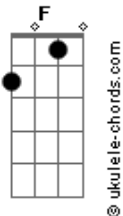

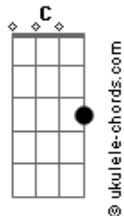

tom:
Intro: F C G
F C G

Hard times, they come and go, you already know
The good times are the same kind of show, they come and they go
But don't let the past hold you back
'Cause you are the one who holds the map

Right to love
You know we get by on love
High on love, you know it
You know we get by on love
Right to love
You know we get by on love
High on love, you know it
You know we get by on love

[Interlúdio] F C G
F C G

Acordes

When you're cryin', just whistle this one, somethin' to help you on
When your life is bringin' you down 'cause you've been away too long
Well, look to the light when your world is goin' dark
You'll know right now you've gone too far, oh, way too far
Far from love
You know you get high from love
Oh, high on love, you know it
You know we get by on love
Right to love
You know we get by on love
High on love, you know it
You know we get by on love
Right to love
You know we get by on love
High on love, you know it
You know we get by on love
