

# The Somethings Specials - Love (Feat. Taylor Olin)

tom:

Intro: F C G  
F C G

Hard times, they come and go, you already know

The good times are the same kind of show, they come and they go

But don't let the past hold you back

'Cause you are the one who holds the map

Right to love

You know we get by on love

High on love, you know it

You know we get by on love

Right to love

You know we get by on love

High on love, you know it

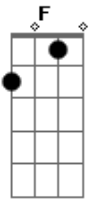

You know we get by on love

[Interlúdio] F C G

When you're cryin', just whistle this one, somethin' to help you on

When your life is bringin' you down 'cause you've been away too long

Well, look to the light when your world is goin' dark

You'll know right now you've gone too far, oh, way too far

Far from love

You know you get high from love

Oh, high on love, you know it

You know we get by on love

Right to love

You know we get by on love

High on love, you know it

You know we get by on love

Right to love

You know we get by on love

High on love, you know it

You know we get by on love
