

# The Strumbellas - We All Need Someone

tom:  
Capostrate na 2ª casa

[Primeira Parte]

The houses caught fire, caught fire in the field  
And the light was astounding, astounding, I guess  
I spent many years, many years in the darkness  
Oh, I'm tired of trying, I did my best

[Refrão]

We all need someone to love and to hold  
We all need shelter to keep us from the cold  
We all need laughter when life gets hard  
We all need someone to love us for who we are, alright now

( G Bm C G )  
( G Em C G )

[Segunda Parte]

The fireworks sang and danced in the night  
So I hid in my bed, so scared that I'll die  
I want the whole world, the world at my funeral  
Watch as the rainbows explode in the sky

[Refrão]

We all need someone to love and to hold  
We all need shelter to keep us from the cold

We all need laughter when life gets hard  
We all need someone to love us for who we are, alright now

( G Bm C G )  
( G Em C G )

[Ponte]

No regrets if we walk the same roads  
We won't forget who we are  
No regret if we walk these new roads  
We may forget who we are  
No regrets if we walk the same roads  
We won't forget who we are

[Refrão]

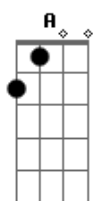

We all need someone to love and to hold  
We all need shelter to keep us from the cold  
We all need laughter when life gets hard  
We all need someone to love us for who we are

[Refrão]

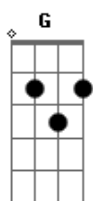

We all need someone to love and to hold  
We all need shelter to keep us from the cold  
We all need laughter when life gets hard  
We all need someone to love us for who we are

[Final] G Bm C G  
G Em C G
