[Primeira Parte]

You only tell us what we're not E

So what? You, you

You love it when we bleed, you feed A

Some people just despise

The diamonds in our eyes

You only love us 'cause we're hot E

So what? Yeah, yeah

We take it on the rocks rolled up

Heard it a thousand times A

Why don't you speak your mind B

'Cause when all is said and done

[Refrão]

The colour off these lips

They say we're just a bunch of fakes, just wait E

And that's why they're on our case

Afraid we'll take their place B
