

The Tears - Autograph

tom:
D

And the morning comes with coffee we can share
Em A D D

And the smell of cigarettes is in your hair
Em A D D

There's the sound of shouts outside the hotel room
Em A D D

Like the night before when cameras flattered you
G D

And if we don't have a future
Gbm Bm

If our lives split like shattered bits of glass
G D

And if we don't have a future
E A

Just leave your autograph
D A

Your autograph

And the night before the neon lit our fate
Em A D D

And our shadows painted many different shapes
Em A D D

But now the mood has turned complex and altered you

There's just the smell of cigarettes left in the room
Em A D D

And we make fake conversation
G D

And we pick through broken bits of glass
Gbm Bm

And it's all just complication
G D

And too complex to ever last
Gbm Bm

Cos if we don't have a future
G D

And if this kiss dissolves into the past
Gbm Bm

And if we don't have a future
G D

Just leave your autograph
E A

Your autograph
D A

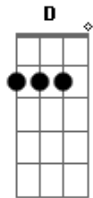

Just leave your autograph
E A

Your autograph
D A

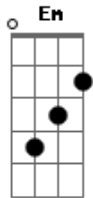

Just leave your autograph
E A

Your autograph
D A
