

The The - Slow Emotion Replay

tom:

The more I see the less I know about all those thing I thought were wrong

or right or carved in stone. So don't ask me bout war, religion or God, love, sex or death because

Everybody knows what's goin wrong with the world But I don't even know what's goin on in myself

X2
Ya gotta work out your own salvation with no explanation.

To this earth we fall. On hands and knees we crawl.

And we look up to the stars and reach out and pray to a deaf, dumb and

blind God who never explains.

Everybody knows what's goin wrong with the world But I don't even know what's goin on in myself

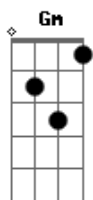

Lord I've been here oh so long I can feel it comin down on me I'm just a slow emotion replay of somebody I used to be

Repeat ->
