I still remember that quiet train ride in the rain

We talked for hours 'bout the dreams we hadn't lived yet

The neon skyline flickered, reflected in your eyes

A kaleidoscope of colors under cloudy skies

And every corner of this city whispers your name
Cm7 Cm7 Eb7M Ebadd9 F
But it's a gentle echo, not a cry of pain

[Refrain 1]
Eb7M F
And I miss you in the silence, I miss you in the crowd

I miss the way you laughed so loud it stood out from the crowd
Cm7 F F
We climbed to see the sunrise from that temple on the hill
Bb7M Gm7
A moment frozen perfectly, and somehow, frozen still

The one with the green light

We never did, (it never did) and that's the beauty and the curse

A perfect, unfinished story, for better or for worse
